

HELPING MEMBERS  
MITIGATE RISK,  
LOWER PREMIUMS  
& REDUCE THE  
FREQUENCY AND  
SEVERITY OF CLAIMS

## Overview

Safety in the workplace prevents people from being injured, assets from being damaged or destroyed, and saves organizations money. The NIP Group risk control team is committed to the highest standards of loss control and safety training. By promoting safety in every aspect of our members' daily operations, a true safety culture is developed over time. NIP Group has launched an innovative, digital risk management platform, NIP Vault, to assist our members with mitigating risk & reducing claims

# Benefits

## **NIP Vault resources include:**

A secure Learning Management System (LMS) for every member insured.

Hundreds of online training modules with expert content.

System to track all online and in-person training, perfect for complying with OSHA standards and State law.

Company claim information for review and to compare to industry standards.

Risk control surveys and assessments to assist with the implementation of best practices.

Industry specific safety resources including policies, procedures, inspection forms, toolbox talks, and safety bulletins.

A resource library housing thousands of employment-related and workplace safety articles.

System to upload company specific records, forms, and videos to create an organization master resource center.

The ability to follow standard and customized training curriculums focused on the most important industry needs.

Human Resources: Modules addressing ADA, FMLA, FACTA, FERPA, HIPAA, Workers' Compensation and other federal laws.
